

7.5kW Energy storage inverter integrated air conditioner (indoor type)

Model: VCE007UUCE122

Voltage: 220V±15% 1PH 50Hz/60Hz
 Installation way: floor-standing/wall-mounted
 Air Supply way: up air supply
 Air Return way: front air return
 Cooling Capacity: 7.5kW(indoor 27°C/50% Outdoor35°C)
 Air volume: 2500m³/h
 Reheating capacity: 5.5kW
 Dimension(W*D*Hmm): 700×550×1800
 Ambient temperature: -40°C~+50°C

● Feature

- Integrated design,easy installation
- High quality inverter compressor, electronic expansion valve, EC machine, make energy saving and efficient operation
- PTC heater, with functions of feeding, cooling, heating and on-site flexible configuration of dehumidification
- 7 inch intelligent touch screen
- RS485 communication port,SNMP Card optional
- High-speed and reliable CAN communication group control
- With multi-function alarm output, multiple protection functions

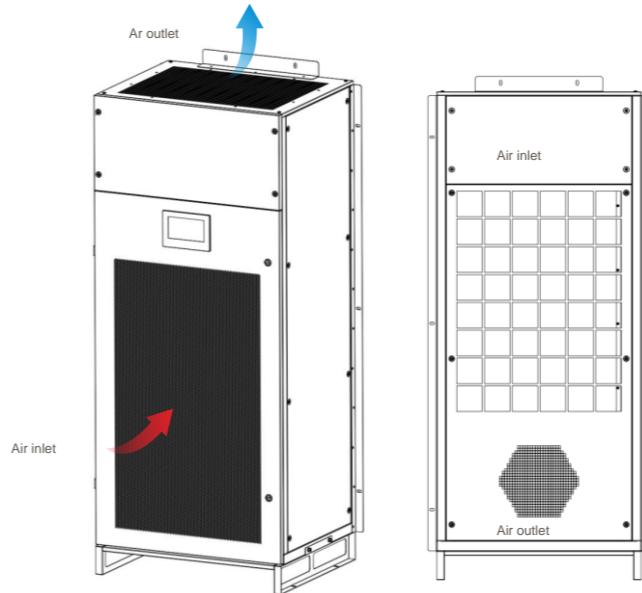

● Application

Energy storage field, photovoltaic field.

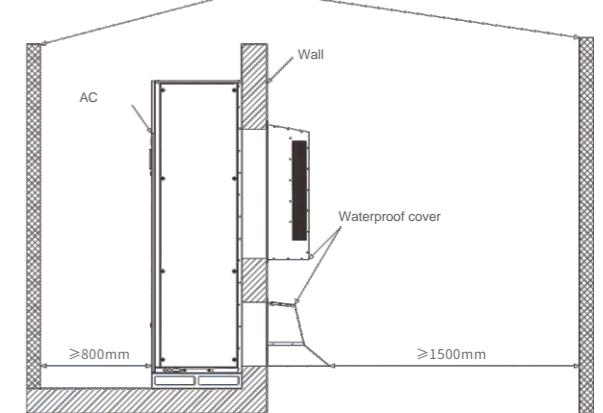

● Parameters

	Model	VCE007UUCE122
Configuration	Total Cooling Capacity(kW)	7.5
	Air Volume(m ³ /h)	2500
	Reheating capacity(kW)	5.5
	Cooling way	Cooling only/Constant temperature
	Refrigerant	R410A
	Compressor	DC frequency conversion
	Fan type	EC
	IP Grade	IP20
Power parameters	Power way	220V 1PH~50Hz/60Hz
	Current@100% loads(cooling only)	16A
	Current@100% loads(Constant Tem.)	26A
Dimension and Weight	Width(mm)	700
	Depth(mm)	550
	Height(mm)	1800
	Installation way	Floor and Wall Mounted
	Application Ambient	Indoor
	Weight(kgs)	163

10kW Energy storage inverter integrated air conditioner (indoor type)

Model: VCE010UUCE122

Voltage: 220V±15% 1PH 50Hz/60Hz
 Installation way: floor-standing/wall-mounted
 Air Supply way: up air supply
 Air Return way: front air return
 Cooling Capacity: 10kW(indoor 27°C/50% Outdoor35°C)
 Air volume: 3000m³/h
 Reheating capacity: 6kW
 Dimension(W*D*Hmm): 700×550×1800
 Ambient temperature: -40°C~+50°C

• Feature

- Integrated design,easy installation
- High quality inverter compressor, electronic expansion valve, EC machine, make energy saving and efficient operation
- PTC heater, with functions of feeding, cooling, heating and on-site flexible configuration of dehumidification
- 7 inch intelligent touch screen
- RS485 communication port,SNMP Card optional
- High-speed and reliable CAN communication group control
- With multi-function alarm output, multiple protection functions

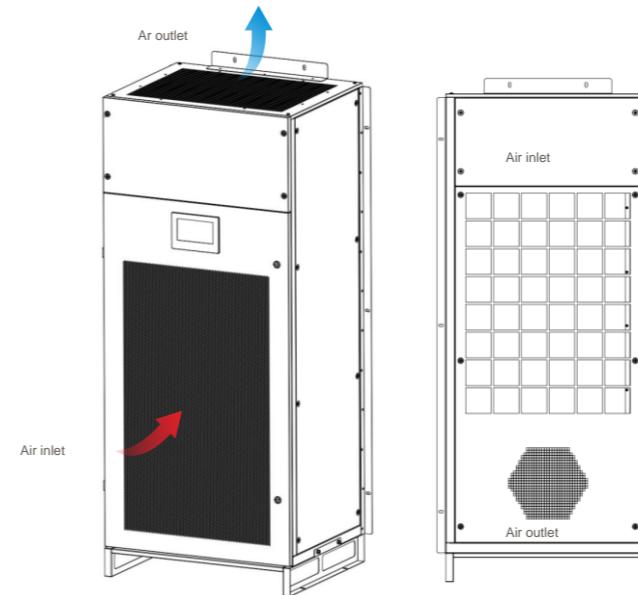

• Application

Energy storage field, Micro data center, Base station.

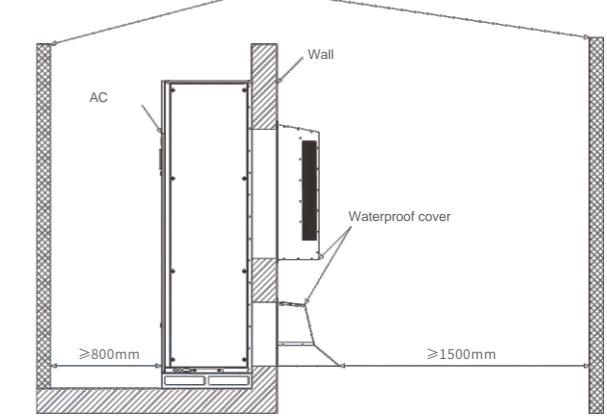

• Parameters

	Model	VCE010UUCE122
Configuration	Total Cooling Capacity(kW)	10
	Air Volume(m ³ /h)	3000
	Reheating capacity(kW)	6
	Cooling way	Cooling only/Constant temperature
	Refrigerant	R410A
	Compressor	DC frequency conversion
	Fan type	EC
	IP Grade	IP20
Power parameters	Power way	220V 1PH~50Hz/60Hz
	Current@100% loads(cooling only)	23A
	Current@100% loads(Constant Tem.)	30A
Dimension and Weight	Width(mm)	700
	Depth(mm)	550
	Height(mm)	1800
	Installation way	Floor and Wall Mounted
	Application Ambient	Indoor
	Weight(kgs)	165

12.5kW Energy storage inverter integrated air conditioner (indoor type)

Model: VCE012UUDE122

Voltage: 380V±15% 3PH 50Hz/60Hz
 Installation way: floor-standing/wall-mounted
 Air Supply way: up air supply
 Air Return way: front air return
 Cooling Capacity: 12.5kW(indoor 27°C/50% Outdoor35°C)
 Air volume: 3200m³/h
 Reheating capacity: 6kW
 Dimension(W*D*Hmm): 800×650×1800
 Ambient temperature: -40°C~+50°C

• Feature

- Integrated design,easy installation
- High quality inverter compressor, electronic expansion valve, EC machine, make energy saving and efficient operation
- PTC heater, with functions of feeding, cooling, heating and on-site flexible configuration of dehumidification
- 7 inch intelligent touch screen
- RS485 communication port,SNMP Card optional
- High-speed and reliable CAN communication group control
- With multi-function alarm output, multiple protection functions

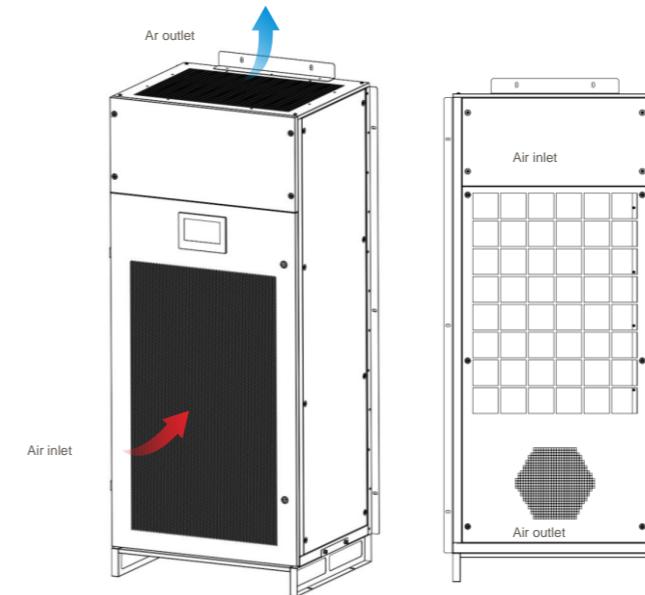

• Application
